Covid-19 Relief Distribution (May-September 2020)

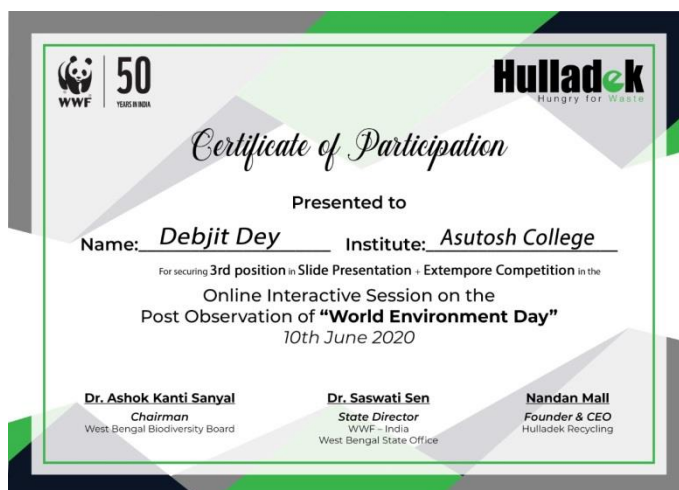

As a part of its social responsibility, the college stood united in providing relief to the distressed during Covid-19. Throughout May to September, nearly 1000 needy families in the neighbourhood of the college were provided with food and essential supplies on a daily basis.

World Environment Day (5-10 June 2020)

The students of the department of Zoology actively participated in the celebration of World Environment Day on 5 June to raise awareness on the need for conservation and adoption of

immediate pro-active measures for the same. The students won laurels on behalf of the college in various competitive events held on 10 June and organised by World Wildlife Fund, India in association with Hulladek Recycling.

SAFE HOME FOR YAAS-AFFECTED (MAY 2021)

As part of the relief and rescue operation for those affected by cyclone Yaas, the college authority lost no time in opening up the classrooms as safe homes for nearly 100 homeless people of the neighbourhood. They were lodged in the college between 26 and 28 May 2021 when government took the initiative for rehabilitation. They were also provided with essentials as well as cooked food and dry ration during that time.

Blood Donation Camp (15 May 2021)

Every year many lives are untimely lost due to lack of blood supply. The crisis heightened during the Covid period. The Asutosh family came forward during this hour of crisis to organise a blood donation camp in collaboration with People's Blood Bank on 15 May 2021 which witnessed enthusiastic participation by the staff and students even at a time when the college was officially closed due to the pandemic.

Sanitization of Neighbourhood Vaccination Centres (June 2021)

As part of the special drive during trying times, the staff and students of the college took the initiative in sanitizing twenty vaccination centres in the Bhawanipore area throughout June.

Covid Relief by the department of Environmental Science (June 2021)

The faculty and students (both present and ex) led by Dr Sayanti Kar of the department, worked tirelessly for distribution of relief and food amongst people affected by the pandemic. The food distribution was done on 17.06.2021 amongst children, disabled and aged in the slums. The relief camp was organised on 18.06.2021 wherein grocery items were distributed amongst needy people residing in Mayachar, Mahisadal, Purba Medinipur. Students who actively volunteered were Shresthashree Swain, Somasree Samanta (Both ex-students of our department) Bidisha Chatterjee (M.Sc. 2nd Semester), Saswati Sinha (M.Sc. 4th Semester) and Bijit Chatterjee (B.Sc. 2nd Semester) who coordinated among themselves over WhatsApp and social media to provide leads for oxygen, medications and bed availabilities. They have divided themselves into four categories of support: hospital beds, oxygen, blood donation and ambulance services. The aim is to see that a patient gets help as quickly as possible.

Webinar on Community Outreach Programme (23-24 July 2021)

A two-day long sensitization and awareness generation programme in virtual mode was organized by the department of Environmental Science between 23 and 24 July. Two eminent speakers enlightened the attendees with their insightful talks.

What can you do?

- In order to lessen the amount of e-waste being produced, individuals can do many things:
 1. Keep your old electronics longer instead of replacing them.
 2. If discarding old electronics, be sure to recycle them at a trusted recycling center.
 3. Purchase efficient electronics that do not contain hazardous materials such as mercury and lead.

Project ECHO (15 October 2020—28 July 2021)

On the occasion of World Environment Day, the department of Zoology participated in the WWF-launched Project ECHO which is an exciting pan-India Youth Volunteering Program that seeks to empower young minds to create innovative, long term, impactful and sustainable conservation projects. The title of the Zoology project was “FOOD TO FEED, NOT BIN INDEED”, through which the students wanted to make people aware that the food web is the web of life - how we grow, transport & process our food is the single biggest determinant of the health of our planet & our own individual health. Food is among humanity's greatest joys. From savouring special delights to sharing food, how we eat symbolizes our deepest bonds. However what is worrying is that the way we consume food could consume us. Our project was relevant to sustainable development goals (SDGs): Zero Hunger (SDG 2), clean water and sanitation (SDG 6), Responsible production and consumption (SDG 12), Climate Change (SDG 13) & Life on Land (SDG 15). 55 students were part of the Echo Team in form of graphics heads, PR heads, social heads etc. What is heartening is that the team won first position in the state.

Career Counselling and Training Programme (Started in November 2021)

The course shifted to the online mode, where google forms were circulated through which the final year students of the college registered.

Financial Assistance to Orphanage in Patharpratima (December 2021)

The department of Geology collected funds for winter clothes and organised a blanket drive for an orphanage in Patharpratima Block, Sunderban, West Bengal.

Mass Vaccination Drive (Throughout 2021)

As a part of Covid prevention protocol, the students' union of the college organised throughout the year vaccination drive where every aspect from registration at the CoWin

portal to administering vaccine was taken care of. Nearly 700 students were vaccinated two doses throughout 2021.
