Declaration

Due to the pandemic situation of the year 2020 and 2021, the Alumni association could not be able to hold meetings, conduct annual programs and collect annual subscriptions from alumni for the year 2020 and 2021, as many of the members of the association were either directly or indirectly affected by COVID 19. However, many of the available members of the association had actively participated in various social activities, particularly in supporting COVID-19 affected member families and society at large at a personal level.
