The role of the student community is important in the advancement of the country because students are the future of the nation.

Following the inspiration of the Chief Minister of West Bengal, Smt. Mamata Banerjee, the state Higher Education department took the initiative of observing the first week of 2022 as *Students' Week*, to acknowledge the immense potential in students, and inspire them to realise the same.

I am indeed happy to say that Asutosh College, in association with the college Students' Union and the IQAC, successfully observed *Students' Week* through online mode in compliance with current Covid-19 safety protocol.

I congratulate everyone associated with the endeavour and also thank the Higher Education department for launching this initiative that has been like a breath of fresh air in these difficult times.

I take this opportunity to extend my sincere best wishes to all our students on the occasion of Students' Week (1-7 January, 2022) and also congratulate them and all members of the Asutosh College family for celebrating the first ever Students' Week from the 1st of January to the 7th of January, 2022, in such a grand fashion despite the obvious limitations imposed by the pandemic situation. To organise an array of events, both competitive and otherwise, entirely in the virtual mode, and at a very short notice, demanded precise planning and suitably competent execution of the same, a challenge that the organising committee, the Asutosh College Students' Union, the college IT section, and the IQAC, working as a combined unit met with resounding success.

To all, my warmest wishes for 2022.

**Message from
Prof. Apurba Ray**
Vice-Principal

Students hold the key to a nation's future. To acknowledge the role of the student community in the task of nation-building, the Government of West Bengal decided to observe the opening week of the new year as Students' Week. Along with other educational institutions in the state, Asutosh College joined in celebrating those seven days.

A number of events were planned by a committee comprising members of staff and students' representatives to observe the Students' Week, and I am delighted to note that from 1 January to 7 January, 2022, students from all the departments and of all semesters participated with much enthusiasm in a host of competitive events and attended webinars designed to address issues relevant to academics in the present pandemic situation.

I congratulate all the participants, members of the organising committee, the IQAC, and the Asutosh College Students' Union for the success of this event which had to be conducted entirely online, and at a very short notice.

My best wishes to all in this new year, may we defeat the Corona virus finally!

Handwritten signature of Prof. Apurba Ray.

Prof. Apurba Ray
Vice-Principal, Asutosh College

**Message from
Dr. Manas Kabi**
Bursar

Greetings to all students, and all members of the college staff, in the new year!

Students, especially the college- and university-level students who are part of the youth community, constitute a nation's assets. This year, Students' Week was observed in educational institutions across the state from 1st to 7th of January, as part of an initiative by the Higher Education department, Government of West Bengal. To mark the occasion, our college, in association with the IQAC and the Asutosh College Students' Union, organised a bouquet of events on the virtual platform. These included competitive events and webinars, which attracted wide participation from students of all semesters. The event, originally planned as an on-campus programme, had to be shifted hurriedly onto an online mode. Superbly managed, with every detail in place, in spite of the changed mode, the Students' Week celebrations was a stupendous success, thanks to everyone in the family that we call Asutosh College.

It is, therefore, with great pleasure and satisfaction, that we present a report of the event.

Manas Kabi →

Dr. Manas Kabi
Bursar, Asutosh College

Message from the Joint Conveners, Students' Week Celebration Committee

Following the directives of Higher Education Ministry, Govt of West Bengal, Students Week was celebrated in Asutosh College from 1st January to 7th January, 2022.

An educational institution is like a second home for students where they learn, build student-teacher relationships, bond with friends and also get to enjoy their time in the institution and build lifelong memories.

Unfortunately for the last two years almost, the pandemic situation has deprived them of all these, resulting in boredom, even depression, as they were not habituated to this. In these difficult times this Government initiative was truly fulfilling as students finally, though in virtual mode, got the opportunity to have a taste of campus life.

Students' Week in Asutosh College was designed to provide a platform for the students to explore, discover, learn, and develop bonding with the institution. This celebration gave them the scope to express their creative potential and provided an avenue for self-expression through various competitions, from songs to recitation to poster-designing and creative writing. They could even evaluate their knowledge of current affairs through the inter-departmental Quiz competition.

Apart from these, other online events like Workshop on Students' Welfare, International Workshop for students to give real time exposure to solving business-problems faced by industries, Webinar on importance of Career Counselling, Webinar on Digital and Blended Mode of Education were organized.

This week-long successful and satisfying programme was an outcome of the combined and dedicated effort of members of the teaching and non-teaching staff, the Students' Union, and the IQAC of the College.

We hope that this refreshing event will leave a lasting impression in the minds of all the students and will help them develop self-confidence, boost creativity, besides imparting formal learning.

Dr. Chandramalli Sengupta, Associate Professor in Bengali

Dr. Keya Ghosh, Associate Professor in Chemistry

FOREWORD

As part of an initiative of the Higher Education department of the State Government, the first seven days of the new year were observed as *Students' Week* in educational institutions across our state. And, as one of the premier colleges in the state, Asutosh College also participated in this unique celebration and acknowledgement of the power and potential of the student community. A host of events, most of them on the virtual platform, were organised to mark the occasion. Even the debilitating atmosphere of the pandemic, and the fact that the end-semester examinations were due to commence shortly, could not deter students from participating enthusiastically in the week-long celebration.

Today, the Publication Cell of Asutosh College proudly presents, as its inaugural project of 2022, a report of the immensely successful *Students' Week* programme organised by the college in association with the Asutosh College Students' Union, and in collaboration with the IQAC.

Asutosh College Publication Cell

A REPORT

Students' Week, an initiative of the Higher Education Department of the West Bengal Government, was observed by Asutosh College from the 1st of January to the 7th of January, 2022. The programme turned out to be a grand success.

A committee comprising students' representatives, members of the teaching and non-teaching staff, and the college IT section, was formed to plan, organise and coordinate the activities of the week-long programme. These included a host of events, including webinars, panel discussions, and competitions, and since all on-campus activities came to be suspended in the state from the 3rd of January, most of these, except the Students Credit Card Awareness programme, were conducted online, using Google Meet platform. They were also streamed live on the Asutosh College Youtube channel for a wider viewership.

It had been a challenge for the Students' Week Celebration Committee to plan and organise this week-long event at a very short notice and that too, in the virtual mode. That challenge was met successfully in spite of inevitable limitations, as is evident from the following report.

In these times of stifling crisis, the Students' Week has been like a breath of fresh air, enriching the students and inspiring them to strive forward, surmounting all obstacles.
