7.1.5 Green Campus initiatives include

Green campus initiatives play a crucial role in promoting sustainability and environmental responsibility within educational institutions. One key component of these initiatives is the commitment to fostering a sense of community and encouraging collaboration among students, faculty, staff, and the wider community.

1. **Restricted entry of automobiles:** Implementing a restricted entry policy for automobiles to reduce carbon emissions and promote eco-friendly transportation options on campus.

2. **Use of Bicycles / Battery powered vehicles:** Encouraging the use of bicycles and battery-powered vehicles to minimize the environmental footprint of transportation on campus while promoting sustainable mobility alternatives.

3. Pedestrian

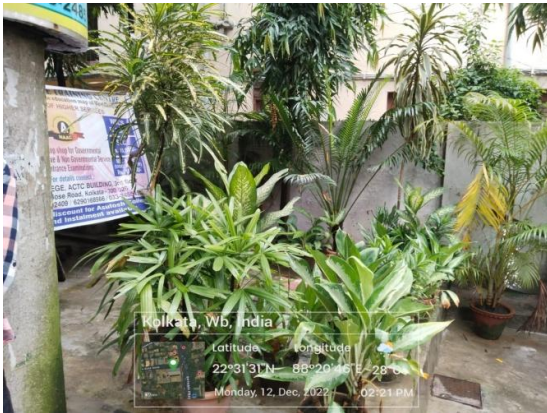

Friendly pathways: Creating pedestrian-friendly pathways to enhance campus walk ability, reduce the reliance on motorized transportation, and foster a greener, healthier environment for the college community.

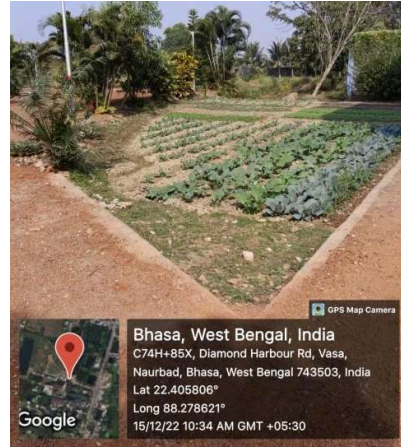

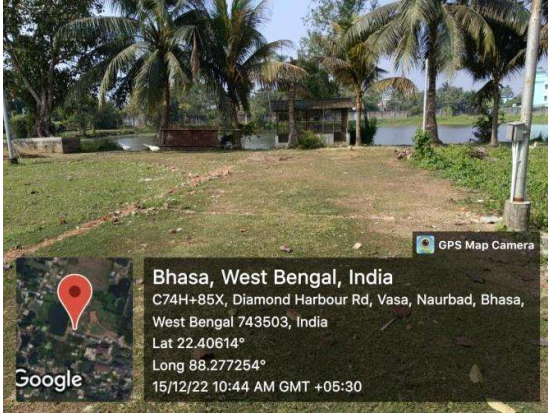

4. Ban on use of Plastic: Implementing a comprehensive ban on the use of plastic products across campus to minimize plastic pollution and promote environmentally-friendly alternatives.

5. Landscaping with trees and plants: Enhancing campus landscaping with a diverse range of trees and plants to improve air quality, provide natural shade, and create a more sustainable and aesthetically pleasing environment.
