Prof. Arun Kumar Choudhury's Contributions:

Founding the Department of Computer Science and Engineering:

Prof. Choudhury's visionary initiative led to the establishment of the "Department of Computer Science and Engineering" at the University of Calcutta in 1980. He served as the head of the department, nurturing it from 1980 to 1983.

Multifaceted Research:

Prof. Choudhury's extensive research spanned various areas, including Analog Computers, Circuit Theory, Control Systems, and Digital Computers.

Spread of Education:

He played a crucial role in advancing education in electronics and computing. Prof. Choudhury's efforts began in 1951, at a time when the country lacked proper infrastructure for learning and research in these fields.

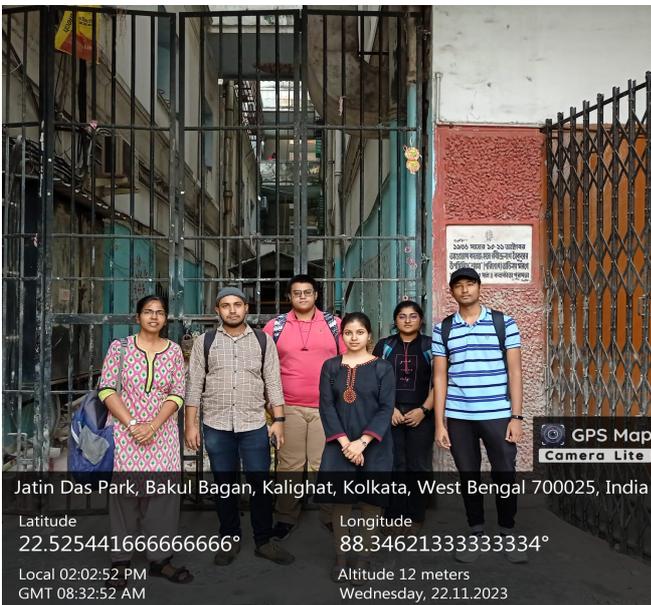

Educational Infrastructure Development:

Prof. Choudhury contributed significantly to building appropriate educational infrastructure in electronics and computer science, particularly in terms of laboratory facilities.

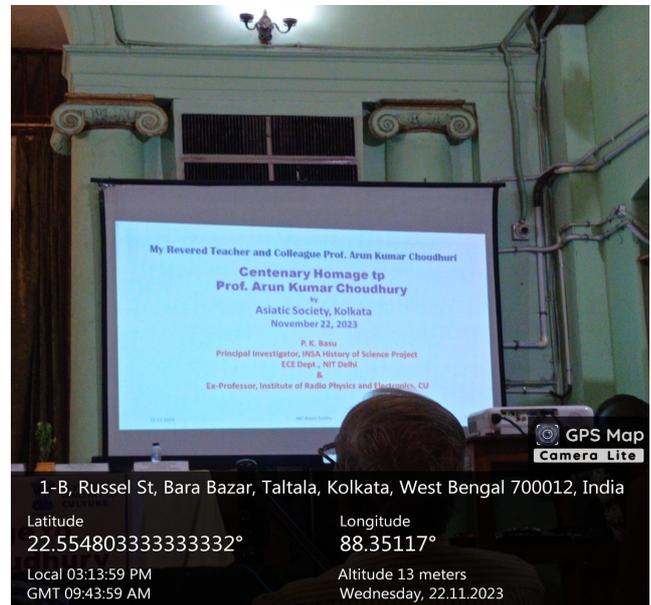

➤ **EXPECTED OUTCOME:**

The Centenary Homage to Prof. Arun Kumar Choudhury was a remarkable tribute to a visionary academician. The seminar not only celebrated his achievements but also provided a platform for intellectual discussions, fostering a deeper understanding of his enduring impact on the fields of electronics and computer science.
