

ECO-CLUB

Month- February

Activities-

- Name of the Department-Eco-club
- Date& Day– 02.02.2022 Wednesday Time: 2 pm onwards
- Name of the seminar / **webinar** / workshop – Celebration of World Wetland Day in “One-Day International Webinar on Wetland and Carbon Sequestration”.
- Organizing committee – Eco Club
- Speakers–
 - **Mr. Tapan Saha**, Senior Scientist (Rtd.), Institute of Environmental Studies and Wetland Management, Govt. of West Bengal, India.
 - **Dr. Abhirup Bandyopadhyay**, Post-Doctoral Researcher, Cognitive & System Neuroscience group, University of Amsterdam, Netherlands.
- Brief summary of the initiative- The webinar was organized on world wetland day to emphasize on the importance of wetlands and their role of carbon sequestration. Wetlands provide many ecological, economical and social benefits, among others, they play a crucial role in the carbon cycle because of their capacities to limit the availability of oxygen to soil microbes and decomposition of organic matter
