Brief Report about the Programme: This lecture was arranged for the benefit of undergraduate and Post- graduation students of Shyamaprasad University and Asutosh College The topic of the lecture was Significance of Urban Green Space Dynamics for Sustainable Urban Planning: A Case Study based Approach from Kolkata Urban Agglomeration which is a very contemporary theme in present day urban society. She had explained the topic with example from Kolkata with the help of remote sensing and GIS technique. She had demonstrated the topic and shares her experiences.

Expected Outcome: Students were enriched with a thorough knowledge of urban green space. Faculties and students also exchanged their views and questions with the resource person.
