- **BRIEF REPORT ABOUT THE EVENT/ PROGRAMME:** The Faculty-Student Meet for UG Semester 5 was held on 11 December 2025 in the GIS Lab, Asutosh College. All departmental faculty members interacted with students to understand academic and attendance-related challenges. Discussions focused on classroom

difficulties, reasons for low attendance, and the performance trends of the 4th semester university results. Most of the students complained about their Tutorial marks in Sociology while being asked about their comparative poor performance in Minor subject. The session encouraged open communication, enabling faculty to address concerns and guide students towards improved academic engagement and outcomes.

- **EXPECTED OUTCOME: The programme is expected to enhance communication between students and faculty, leading to better understanding of academic challenges and attendance issues. Students will gain clarity on performance expectations, while faculty will be able to provide targeted guidance for improving results. The meet is anticipated to foster a supportive learning environment, encourage active participation in classes, and contribute to improved academic performance and overall student well-being in upcoming semesters.**
