The Vice Chancellor,
University of Calcutta

Re: Grievance regarding teaching faculty of Geology department, Asutosh College
Sir,

This letter is from all the students of B.Sc. 3rd year Geology (Honours) department, Asutosh College to inform you about our grievances regarding teaching faculty of our department.

In our three academic years, more than half of the syllabuses were not taught by our teachers. The topics that were covered were taught with utter negligence. We have to depend solely on outside tuitions. As a result we are lacking behind other university students and not getting admission for Masters from our desired colleges.

In our department, except Prof. Rwiti Basu and Prof. Arpita Samanta, all other teachers are very much reluctant. Classes do not occur according to the routine and we also have to request some of our senior teachers to take their respective classes. Our juniors are facing the same problem like us. We have completed our three years and we do not want them to face the inconveniences that we have faced.

We will be highly obliged if you kindly look into the matter and take necessary actions as early as possible.

Thanking You,

Yours faithfully,

B.Sc. 3rd year students Geology department
