

Detailed Report

To highlight how Physics can shape into building a career of a successful Entrepreneur, the Department of Physics, Asutosh College in collaboration with IQAC and Entrepreneurship Cell has organized an *one-of-a-kind* Seminar by an *alumnus* (Batch of 2001) on 12/12/2023. The required data are presented below:

Name of the Dept. - Physics

Date & Day – 12/12/2023, Monday.

Name of the seminar/webinar/workshop – Physics & Beyond: Give Your Learning a Wing.

President : Prof. Tathagata Roy Chowdhury

Speakers : Mr. Arnab Chakraborty (Lead Technical Product Owner, Cigna Corporation, NJ USA).

The organising committee :-

- 1) Dr. Amit Kumar Bhattacharjee (Convener),
- 2) Dr. Surjya Sarathi Bhattacharyya & Dr. Manorama Chatterjee (Joint Convener),
- 3) Mr. Somnath Das (Flyer Preparation),
- 4) Dr. Parikshit Dutta (Event Organizer),
- 5) Dr. Aditi Das (Joint Event Organizer),
- 6) Participants - Students of Semester 1, 3 & 5 (Physics Honours).

YouTube Link - No. It's an offline initiative.

Brief summary of the event:

The event presided by Prof. Tathagata Roy Chowdhury, Department of Botany, Asutosh College initiated by the welcome note. Importance of new industry-oriented job perspective, the inter-personal relationship skills and the pathway to remain important and profitable (and thus hireable) in an industrial setup, as well as the role of being a successful entrepreneur were highlighted. The invited speaker, who was an alumnus of the Department's 2001 Batch and batchmate of Prof. Surjya Sarathi Bhattacharyya was introduced to the audience by Prof. Amit Kumar Bhattacharjee. The event was anchored and the Vote of Thanks were also delivered by Prof. Amit Kumar Bhattacharjee. Around **75** students of the Physics Department participated in the event. The program initiated via a direct student-speaker interaction about career and pathway beyond the domain of Physics. The main take home message was to identify few human qualities and traits using which a person can remain useful between product (and team workers delivering the same) and client to become a very successful entrepreneur. An example from the Pharmaceutical world were demonstrated as an example. We expect such phenomenal international exposure of alumnus from industry who had been working as a successful entrepreneur may help shape the future of many students, who wish to explore such opportunities at an International platform in the challenging World of today, where academic jobs as well as Government funded jobs are way too limited.

A few memories of the day are attached.

Welcoming the Speaker and the greeting with flowers were delivered by Ms. Nupur Sarkar, our Vth Semester Student.

Student-Speaker Interaction on Inter-personal skills, leadership skills, self awareness and skills for staying successful in a day-to-day changing world

Parting ways after the Seminar
