➤ **BRIEF REPORT ABOUT THE EVENT/ PROGRAMME:**

The Department of Physics, Asutosh College, organized a stimulating Alumni Meet on December 24, 2025, as part of its ongoing initiative to build strong connections between current students and accomplished alumni. These sessions aim to provide academic enrichment, career insights, and inspiration for students

through direct interaction with those who have walked the same path and ventured into diverse fields of research and professional excellence.

Many alumnus shared their personal academic journey in India and abroad, highlighting the challenges and milestones that shaped their transition from undergraduate studies at Asutosh College to cutting-edge research at a premier national institution. This personal narrative resonated deeply with students, offering both motivation and practical insight into the rigors and rewards of pursuing higher studies in physics.

The session concluded with an interactive Q&A segment, where students posed thoughtful questions, leading to stimulating discussions on the future research, interdisciplinary opportunities, and the importance of critical thinking in scientific inquiry.

Overall, the Alumni Meet proved to be an intellectually enriching experience, leaving students with a deeper understanding of future life and a renewed sense of curiosity. The Department of Physics remains committed to organizing such events that not only enhance academic learning but also strengthen the sense of community among past and present members of the college.

Special acknowledgment is due to Dr. Parikshit Datta in conceptualizing this event. We thank the teaching, non-teaching members, students & alumni of the Department to make this program a grand success. A few pictures are attached next.

A few Noted alumni in the picture: Arnab (Assistant Professor, VIT), Soumyakanti (PhD Scholar TIFR Mumbai), Sutirtha (PhD Scholar University of Tennessee), Krittika (PhD Scholar, CERN Geneva).
