

Ray Day: Bhuter Raja Dilo Bor film Fest

Keeping in mind the occasion of Satyajit Ray's birth centenary the department of political science organised a one day film festival. A documentary on Satyajit Ray along with his film Kanchenjunga was shown.

Ray's films have always been political, representing the societal structure and social relations. Kanchenjunga is a film which depicts the existing class relations within the society. It explores the cultural etiquettes that come with each class in the society. Students thoroughly enjoyed the show.
