Group Members:

1. Nayanika Sengupta
2. Atosi Das
3. Prajeet Das
4. Soumik Mukherjee
5. Amrita Bayen
6. Diya Das

We visited the Indian Institute of Psychiatry on 7th September, 2023. It was an interesting visit to the educational OPD conducted by the Indian Institute of Psychiatry, Kolkata. We observed patients of various age groups ranging from disorders such as Autism Spectrum Disorder , Attention-deficit/ Hyperactivity Disorder and Bipolar Disorder. We further got a chance to observe the

Play Therapy conducted by them. The visit to the institution provided us with a better understanding of the clinical exposure, enriching us with the knowledge of the disorders and interventions.

We are grateful to our college for giving us a first hand experience of the clinical field and it was a great honour for us to attend such an enhanced program for our benefit.
