- **BRIEF REPORT ABOUT THE EVENT/ PROGRAMME:** The Central Institute of Fisheries Education (CIFE) organized a visit to showcase recent advancements in aquaculture practices. The visit aimed to provide participants with a hands-on learning experience and facilitate interactive engagement with the latest technologies and methodologies in aquaculture. CIFE's participative learning approach during the visit focused on immersing participants in cutting-edge aquaculture practices through various interactive methods like Hands-On Workshops, Field Demonstrations, Interactive Seminars and Group Discussions and Q&A

➤ **EXPECTED OUTCOME:** The visit to CIFE provided an effective participative learning experience, offering valuable insights into the latest advancements in aquaculture practices. The hands-on workshops, field demonstrations, and expert seminars enriched participants' understanding and practical skills. The interactive and collaborative nature of the visit successfully bridged theoretical knowledge with real-world applications, highlighting the effectiveness of participative learning in advancing aquaculture education.
