- BRIEF REPORT ABOUT THE EVENT/ PROGRAMME: Earth Day, celebrated annually on April 22nd, is a global event aimed at promoting environmental protection and sustainability. In 2024, the theme "Planet versus Plastic" took centre stage, highlighting the urgent need to address the growing issue of plastic pollution and its detrimental impact on the planet. A seminar was conducted by the NSS unit in association with departments of Statistics and B.Voc Studies in collaboration with IQAC Asutosh College on the 29th April in Seminar Hall, Centenary Building ,Asutosh college. A talk was delivered by Dr Shramana Roy Barman on Plastic Pollution, its Challenges and Sustainable Solutions followed by a poster drawing competition by students and a short quiz on the recent environmental scenario of plastic pollution.
- EXPECTED OUTCOME: The expected outcome of world earth day is to increase global awareness about the ill effects of plastic pollution. To make necessary policy changes by the government to reduce plastic pollution. To ensure corporate responsibility by companies that produces or use large amount of plastic and have global collaboration amongst government and non-governmental organisations.
