➢ **BRIEF REPORT ABOUT THE EVENT/ PROGRAMME:** A National Level
Webinar on Hacking would focus on cybersecurity threats and ethical hacking,
educating participants on cyber vulnerabilities, types of malware (ransomware,
rootkits, Trojans), and the need for proactive security measures to prevent data
breaches and financial loss. Discussions often cover malicious attacks and the
importance of ethical hackers in finding and fixing these vulnerabilities on behalf of
organizations to protect digital information. Government Policies and Regulations:
Mentioning efforts by governments to enforce data security, such as the General Data
Protection Regulation (GDPR), and the need for strong security policies.

➢ **EXPECTED OUTCOME:**
- Hands-on exposure helped attendees understand prompt engineering and
context control.
- Ethical awareness was raised regarding AI bias, privacy, and responsible
usage.
- Feedback collected via Google Forms showed 90%+ satisfaction in content
quality, speaker delivery, and relevance.

➢ **GEO-TAGGED PHOTOGRAPHS:** No.
