

## **One day Webinar On MACHINE LEARNING**

Department of Software Development, B.Voc Studies has organized a ONE day webinar on the topic "MACHINE LEARNING" in association with IQAC, Asutosh College. The webinar has been held on 22<sup>nd</sup> November, 2022.

### **Theme of the Webinar**

The purpose of Artificial Intelligence is to aid human capabilities and help us make advanced decisions with far-reaching consequences. Currently, the purpose of Artificial Intelligence is shared by all the different tools and techniques that we've invented over the past thousand years – to simplify human effort, and to help us make better decisions. Artificial Intelligence has also been touted as our Final Invention, a creation that would invent ground-breaking tools and services that would exponentially change how we lead our lives, by hopefully removing strife, inequality and human suffering.

Artificial Intelligence prepares students with the skills to perform intelligent data analysis which is a key component in several real world applications. This webinar will help participants gain skills in fields like Artificial Intelligence, computer science, data science and will also provide knowledge about career opportunities in social networking, e commerce, biotechnology, and other related areas. The major focus of this webinar will be to equip participants with mathematical reasoning, machine learning, and knowledge discovery and visualization skills. Artificial Intelligence has the potential to help humans live more meaningful lives devoid of hard labour, and help manage the complex web of interconnected individuals, companies, states and nations to function in a manner that's beneficial to all of humanity.

### **Eminent Resource Persons**

Prof. B.B Chaudhuri (IEEE Fellow, ex-ISI Professor)  
Pro-Vice Chancellor of Techno India University
