- **BRIEF REPORT ABOUT THE EVENT/ PROGRAMME:** This hands-on Power BI workshop is designed to explore data visualization and reporting using Microsoft Power BI. Over the course of two engaging sessions, participants will gain practical experience by building an interactive sales dashboard from scratch using real-world

data. The workshop emphasizes learning by doing—starting from importing data to creating dynamic visuals, applying design principles, and creating final dashboards. Whether you're a beginner or have some experience in analytics, this workshop will equip you with the essential skills to effectively communicate insights through compelling dashboards.

### ➤ EXPECTED OUTCOME:

- Participants gained deeper insights into data visualization and business intelligence concepts.
- Hands-on sessions enabled practical understanding and application of Power BI tools.
- The workshop sparked interest in pursuing further learning and certification in Power BI.
- Participants received **certificates of participation** upon successful completion
