

Message from the President, Governing Body Asutosh College

On this World Environment Day 2025, themed “**Collective Action to Tackle Plastic Pollution**,” we are proud to unveil the latest edition of our e-magazine, *The Earth Talk: Changing Perspectives* (ISSN 2583-4940), from the Department of Environmental Science, Asutosh College.

This publication is a reflection of our joint commitment to sustainable environmental leadership. As plastic pollution has become one of the most pressing challenges of our time, the voices and visions of our students and faculty have come together to raise awareness, provoke thought and encourage meaningful change.

Through powerful articles, striking visuals, and innovative perspectives, this issue aims to inspire collective responsibility. The students of the Department of Environmental Science, the future torchbearers of sustainability, have poured their creativity and conviction into every page of this e-magazine.

I congratulate the Department of Environmental Science for their continuous efforts in spreading awareness through this venture. Together, let's strive for a cleaner, healthier planet—starting with the choices we make every day.

Warm regards,
Prof. Saugata Roy
President, Governing Body
Asutosh College

Message from the Principal

As we observe World Environment Day 2025, we are reminded that **plastic pollution is not just an environmental issue—it is a social and moral one.** This year's theme, “**Collective Action to Tackle Plastic Pollution,**” calls for shared responsibility across generations and sectors.

I take great pride in the initiative shown by the Department of Environmental Science through the publication of *The Earth Talk: Changing Perspectives* (ISSN 2583-4940). The articles, illustrations and photographs not only reflect the growing concern about plastic pollution but also show the ways in which we can unitedly address it.

This e-magazine serves as an excellent platform for fostering environmental consciousness, and I applaud the students and faculty for their dedicated work. This contribution reminds us that every step—however small—can have a profound ripple effect when taken together.

Let us commit ourselves to reducing our plastic footprint and embracing sustainable habits in our daily lives. Together, we can shape a cleaner, greener future for our planet.

Dr. Manas Kabi
Principal
Asutosh College

Message from the Chief Editor

“The war on plastic pollution cannot be won in isolation—it demands **collective action** and **community-driven change**.”

On the occasion of World Environment Day 2025, I am delighted to present the third volume of *The Earth Talk: Changing Perspectives* (ISSN 2583-4940), which boldly explores the theme “**Collective Action to Tackle Plastic Pollution**.”

This bilingual magazine brings together diverse voices from across our college—students and faculty alike—to shed light on the urgent crisis of plastic waste and its devastating impact on our ecosystems. From essays and poems to photographs and artwork, each contribution challenges us to rethink our consumption habits and champion sustainability.

I extend heartfelt congratulations to everyone involved in this endeavor. Your dedication continues to elevate environmental dialogue within and beyond the campus. May we keep nurturing this spirit of collaboration to ensure that awareness translates into action.

Dr. Shramana Roy Barman

Head, Department of Environmental Science
Asutosh College

Message from Advisory Board

Dear Readers,

On this World Environment Day 2025, we come together under the powerful theme: **“Collective Action to Tackle Plastic Pollution.”** This is not just a slogan—it’s a blueprint for change.

Our e-magazine, *The Earth Talk: Changing Perspectives* (ISSN 2583-4940), has consistently served as a beacon for environmental awareness. This edition highlights the critical role each of us plays in reducing plastic waste and protecting our ecosystems.

As members of the Advisory Board, we commend the Department of Environmental Science for once again leading with passion and purpose. Let this publication inspire every reader to take actionable steps—whether it’s refusing single-use plastics or advocating for systemic reform.

Together, we can disrupt the cycle of pollution and work towards a cleaner, safer, and more sustainable future.

Warm regards,

The Advisory Board

The Earth Talk: Changing Perspectives

Asutosh College

Message from Publication Cell

We extend our sincere appreciation to the Department of Environmental Science for launching this timely edition of *The Earth Talk: Changing Perspectives* (ISSN 2583-4940) on World Environment Day 2025.

With the theme **“Collective Action to Tackle Plastic Pollution,”** this e-magazine sets a new benchmark in environmental education and engagement. It not only informs but also inspires the reader to reflect on how everyday choices can contribute to global solutions.

We believe this effort will resonate deeply within our academic community and beyond. May this publication continue to ignite dialogue, promote understanding and drive action toward a future free from plastic pollution.
