GOVERNING BODY PRESIDENT'S MESSAGE

It gives me great delight and satisfaction to greet all students who have chosen Asutosh College as their institute of higher education in this new academic session of 2019-20.

As a former teacher in the department of Physics of the college and now the President of its Governing Body, my association with this college has been a long and enriching one. It has been my privilege to have taken part in its long journey towards achieving excellence in every respect, academic as well as co-curricular, something that has been vindicated by the Grade A status achieved through the NAAC assessment of 2016-17.

I take this opportunity to wish all students, members of staff, teaching and non-teaching, and all stakeholders, for a deeply satisfying year ahead.

PRINCIPAL'S MESSAGE

Asutosh College, established more than a century ago, an institution with which I continue to nurture a deep bond, today renews its pledge to provide quality education to students of Bengal and beyond. To all who are, have been, and will soon come to be associated with this august institution, I take this opportunity to extend my warmest wishes.

Sir Asutosh, the doyen of modern education in India, whose exemplary vision led to the founding of South Suburban College, renamed Asutosh College after his death in May, 1924, remains our guiding spirit, and the Tagorean vision of an environment where knowledge is unfettered - **Jñān Jethā Mukto** -, our ideal.

Under the able leadership of our Vice-Principal, Prof. Apurba Ray, we continue in an untiring quest of realising that ideal.

VICE-PRINCIPAL'S MESSAGE

It is the beginning of a new academic session and time for us to welcome a fresh crop of young adults into the Asutosh College family. A heritage institution in its own right, our college not only has a history of successfully implementing the regular academic programmes of the affiliating university, but also of providing ample opportunities for co-curricular pursuits, which foster the all-round development of personality. At the same time, the college also offers a range of students' support services which I hope all our students will make the best use of and benefit from during their years on campus.

Like all other colleges affiliated to Calcutta University, Asutosh College has just made the transition into the new curricular set-up of the Choice Based Credit System (CBCS) of study under the Semester system. And, as in the case of any such transition, there have been teething problems which are being taken care of by all who are part of the college, in the true spirit of cooperation and coordination.

To all who join us today, and who continue to be a part of Asutosh College, on behalf of the administration, and all members of staff, teaching and non-teaching, I extend my sincere good wishes as we continue on our journey towards achieving academic excellence, while also reminding ourselves of our social and moral responsibilities in the context of the present time.

BURSAR'S MESSAGE

Asutosh College is one of the oldest Colleges in West Bengal which is affiliated to the University of Calcutta. The College has successfully produced many well-established and eminent personalities who have proved themselves distinguished over the years in society. Our College is proud of its unique tradition and cultural richness since the colonial period. It represents our glorious history, independent identity and dream for a better future.

Our College maintains deep respect for different communities irrespective of class, creed and religion. To quote few lines for our dear students: *"Great minds discuss ideas; average minds discuss events; small minds discuss people."*

I extend my heartiest congratulation to the newly admitted students.

CAREER PROSPECTS

History is a dialogue between the past and the present. Thus students of history, equipped with the knowledge of the past, are better equipped to understand the present and plan for the future. A degree in History would thus open up several avenues. A career in teaching, after obtaining the B.Ed degree or qualifying for the NET/SET examination as the case may be, (school/college/university) is a viable option. Another possibility is in the media sector. Since a student of history is endowed with an understanding of the past, he/she can look forward to a career as an analyst in the electronic/print media, be it in the field of politics, sports or culture since history imparts a holistic understanding.

Also a student of history would shine as a diplomat/bureaucrat, since we follow colonial structure in our administrative set-up with which he/she would already be familiar with, courtesy his/her grounding in history.
